

Pneumatic Sample Cutting Machine iCR-6040

Product Description:

Pneumatic sample cutting machine uses pneumatic to cut all kinds of test pieces, suitable for laboratory cutting rubber, plastic, leather and so on. Test dumbbell test pieces, and other special materials, can also be used as a small press.

Specification parameters:

Capacity: 1T

Output source: Air pressure above Min.5kg/cm²

Cylinder stroke: 50mm

Cut thickness: 15mm

Effective use space: 400×350×100mm

Volume: about 470×400×700mm

Weight: About 95kg
